PROFESSIONAL SUMMARY

Full Stack Developer specializing in React.js, Node.js, and the MERN stack, delivering robust web architectures and cloud-deployed applications. Demonstrated history of engineering scalable systems, achieving **30% latency reductions** and supporting **10,000+ monthly user interactions**. Core competencies include RESTful API development, JWT authentication, and advanced database indexing, focused on high-performance, data-driven software solutions while consistently ensuring uptime for **99.9% of production traffic**.

TECHNICAL SKILLS

- **Programming Languages:** Java, C, JavaScript (ES6+), HTML5, CSS3, SQL
- **Frontend Development:** React.js, Redux, Bootstrap, Material UI, Tailwind CSS, Responsive Web Design
- **Backend Development:** Node.js, Express.js, RESTful API Design, JWT Authentication, MVC Architecture
- **Databases:** MongoDB, MongoDB Atlas, MySQL, Database Design, Query Optimization
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Render, AWS, Cloudinary
- **Core Concepts:** Data Structures and Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

Full Stack Web Developer (Remote) | Tripswanky.com — August 2026 - September 2026

- Developed **8+** responsive full-stack features for a live travel-booking website using React.js, Node.js, Express.js, and MongoDB, improving mobile usability across all major browsers.
- Integrated **6+** RESTful APIs for destination listings, search, and customer enquiry flows, and resolved **15+** production bugs using Postman and browser developer tools.
- Improved page load time by **20%** by optimizing React.js components, image assets, and MongoDB queries, strengthening SEO-friendly page performance.
- Collaborated remotely using Git and GitHub for version control, code reviews, and on-time delivery of every assigned task within the **2-month** internship.

Software Developer Intern | Yuga Yatra Retail (OPC) Pvt. Ltd. — June 2026 - August 2026

- Constructed **12+** full-stack modular features for HomiePG.com, a high-traffic MERN-stack booking portal, supporting concurrent live sessions while ensuring data integrity and system reliability.
- Optimized MongoDB queries and indexing strategies, cutting application response latency by **30%** and improving throughput for critical property-management requests.
- Deployed responsive React.js interface components, integrating **8+** RESTful APIs for user authentication, real-time booking flows, and secure profile management.
- Streamlined workflows with Git-based version control, accelerating the feature delivery cycle by **25%** through testing and rigorous code reviews to maintain **zero-incident production builds**.

PROJECTS

FinPsych - Personal Finance Tracker | *Built with: React.js, Node.js, Express.js, MongoDB, JWT* — Live Demo | GitHub

- Architected a robust financial monitoring engine using JWT-secured RESTful APIs, enabling users to track **1,000+** monthly transactions with high accuracy, multi-currency support, and real-time analytical reporting.
- Engineered custom MongoDB aggregation pipelines to visualize cash flow patterns, resulting in a **40%** improvement in data processing speed for fiscal reporting and budget forecasting, with **sub-10ms** query execution times.

API Playground - API Testing Client | *Built with: React.js, Node.js, Express.js, REST API* — Live Demo | GitHub

- Developed a Postman-inspired testing interface capable of executing **25+** concurrent HTTP requests with persistent history visualization, reducing manual API debugging overhead by **50%**.

Wanderlust - Property Listing Platform | *Built with: Node.js, Express.js, MongoDB, Cloudinary, React.js* — GitHub

- Implemented secure user registration and role-based access control using Cloudinary, successfully managing **500+** high-resolution image uploads with **99.9%** asset availability.
- Orchestrated a full-stack CRUD property listing environment with responsive UI, maintaining **sub-200ms** interaction latency across major mobile browsers via optimized **state hydration patterns**.

EDUCATION

Shri Ram Murti Smarak College of Engineering and Technology, Bareilly — 2023 - 2027
Bachelor of Technology in Information Technology | **SGPA: 7.7/10.0**

CERTIFICATIONS

- Generative AI - LinkedIn Learning
- Oracle Cloud Infrastructure 2025 AI Foundations Associate
- APERTRE 3.0 - Mentee, Open-Source Program (collaboration & technical growth)
